North Hanover Township School District

2019**-2020** District Budget

Helen E. Payne Superintendent

Budget Considerations

BIG IDEA: Support and improve programs and student achievement while managing uncertain revenues.

- Support high quality learning experiences like STEM, specialized reading, positive behavior intervention and supports, staff development needs, technology infrastructure, data tracking and accountability
- Position for complete loss of B2 (Heavily Impacted funding)
- Prepare for threat of a second sequestration
- Improve services for all students, including special education, gifted and talented, students needing intervention and English Language Learners

Program Goals

- Improve student achievement with continued focus on literacy and mathematics
- Sustain Next Generation Science Standards district-wide; implement systematic STEM/pre-engineering experiences (Project Lead the Way).
- Implement full day, high quality 3 year old and 4 year old pre-school, with transportation
- Foster standards-based, data rich instruction with high levels of classroom and intra-team differentiation and collaboration

Program Goals, continued

- Maintain "living," hands-on, teacher developed, tightly aligned curriculum, instruction and assessment (ELA, Math, Special Areas)
- Improve systemic intervention program for struggling and excelling learners by expanding the continuum of services available (Reading Specialist, Behavior Support Specialist, additional Math Intervention teacher, additional Special Education teacher)
- Provide for 21st Century skill development through authentic, active learning and functional, seamless use of technology resources (one-one device access)

Program Goals, continued

- Provide intensive and continuous opportunities for high quality professional learning for all staff (ex: PLC, multi-sensory reading, STEM, supporting military connected students, positive behavior intervention/support, mathematics instruction).
- Further develop Social-emotional learning opportunities, supports and interventions and family connections in order to address the needs of the whole child (Transition Coordinator/Community Parent Involvement Specialist, Social Wellness for Academic Growth, Responsive Classroom, Behavior Specialist)

Program Goals, continued

• Ensure all facilities are updated, safe and secure and support current programs (opening of Endeavour School, renovation at CB Lamb School, planning for UES upgrades).

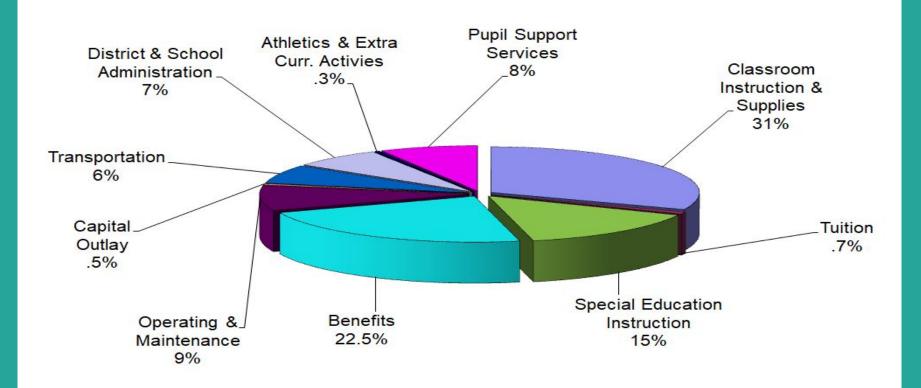

2019-2020 Budget Goals

The proposed budget represents the Administration and Board of Education's best recommendation that

- 1. Meets program goals
- 2. Continues the commitment to professional development and support
- 3. Controls spending to address declining revenue
- 4. Maintains a local tax effort at 2% cap
- 5. Maintains enough Impact Aid in reserve to adjust/respond to future volatility and short and long-term facility needs

Good News/ Bad News

Good News

- FY18 Impact Aid is looking better than anticipated
- FY19 IA Basic Support appropriations are up \$31m program-wide
- FY20 IA request +50m (long way to go in budget process) This would keep payments at FY18 levels.
- Operating Budget is balanced this year based on \$7m IA payment
- State Aid is stable
- Tax impact is small (\$15 for average home/year)
- All programs intact, with planned improvements
- Taking advantage of grant opportunities for alternative revenue sources
- Adequate reserve for payment volatility and future facility needs

Bad news

- Second round sequester is still possible (5% cut)
- Hold Harmless payments final step down next year, and then end.

Bottom Line

- Impact Aid is a moving target. Other revenues are essentially flat or growing at a fractional pace. Property taxes support a very small portion of the budget.
- We have reduced expenditures >\$2.6 million in 7 years to cope with declining revenue.
- We will not maintain B2 status, and FY19 is our last year of Hold Harmless.
- We must hold the line at approx \$7m in IA or less going forward
- If strong appropriations continue, we will be able to sustain this spending level but we cannot grow our budget.
